

Bridges between research and practice in ULLL

Key Questions

- How can the link between academic research on ULLL and professional practice on teaching and learning in ULLL be strengthened?
- How can this exchange produce reciprocal benefits and mutual learning?
- How can the European policy debate on LLL in universities and beyond the wider expert community in adult education be stimulated?

Key Idea

DIALOGUE aims at bridging the gap between academic research on University Lifelong Learning (ULLL) and the professional practice around adult teaching, learning and guidance within LLL provision. By strengthening these links, the project will support the collective production of knowledge and the interactive exchange of information, which reinforces the evolution of LLL.

- Development of final recommendations aiming at the promotion of a sustainable ULLL Dialogue
- Networking with partners outside the university to facilitate the transfer of knowledge from and between ULLL and other partner organisations
